Come and join us to research UK farm woodlands at Bangor's School of Natural Sciences in partnership with Woodknowledge Wales. Three fully funded Masters by research opportunities currently available:

- 1. Quantifying the value of farm woodlands for timber products and carbon using terrestrial laser scanning (lidar)** <https://lnkd.in/eWjUtzHj>

- 2. Adding value to, and scaling up farm forestry through collective and collaborative management** <https://lnkd.in/euT85ETD>

- 3. Life cycle analysis-based modelling of 'Welsh timber' incorporating environmental burdens and ecosystem service impacts** <https://lnkd.in/eyZY2niS>

See above links / QR codes for details & how to apply. Closing date for applications is 31st July 2023. Studentships to start October 2023 and are open to UK applicants only.
